1,600,000 m<sup>2</sup>

50,000 luminaries

AVERAGE

ESTIMATED SAVINGS:

63%

THIS IS EQUIVALENT TO:

1,912,264  
Gallons of  
gasoline  
consumed

3,813  
Passenger  
vehicles driven  
for one year

360,253  
Tree seedlings  
grown for  
10 years

ANNUAL FIGURES

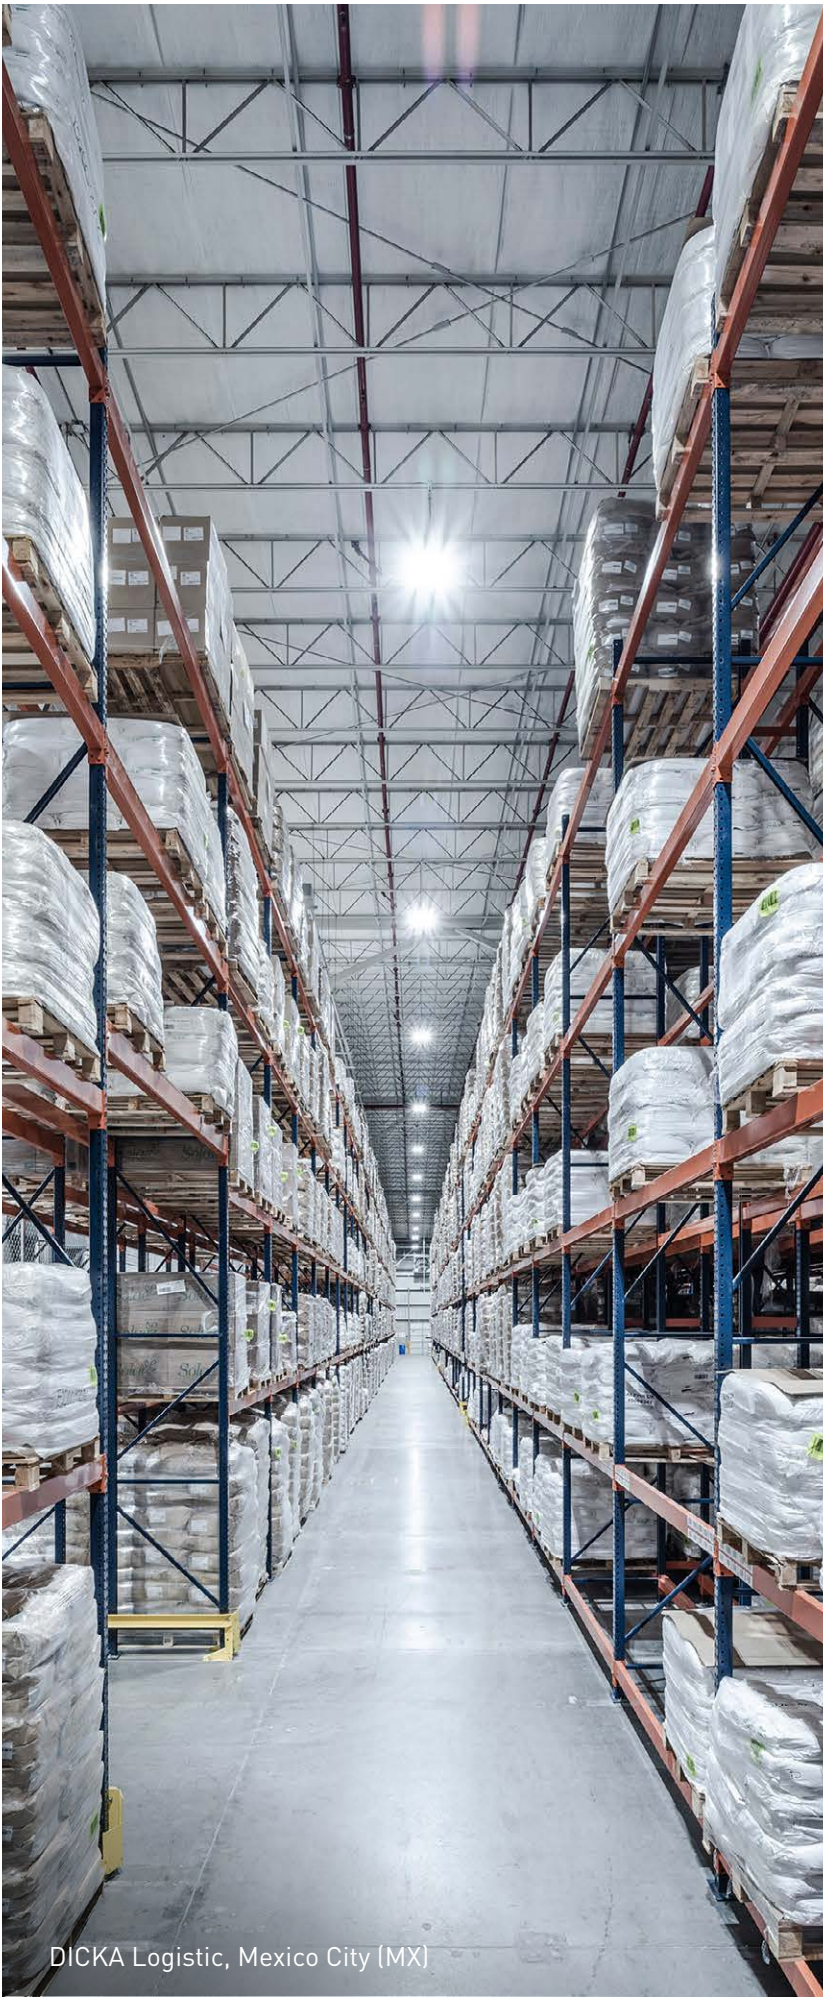

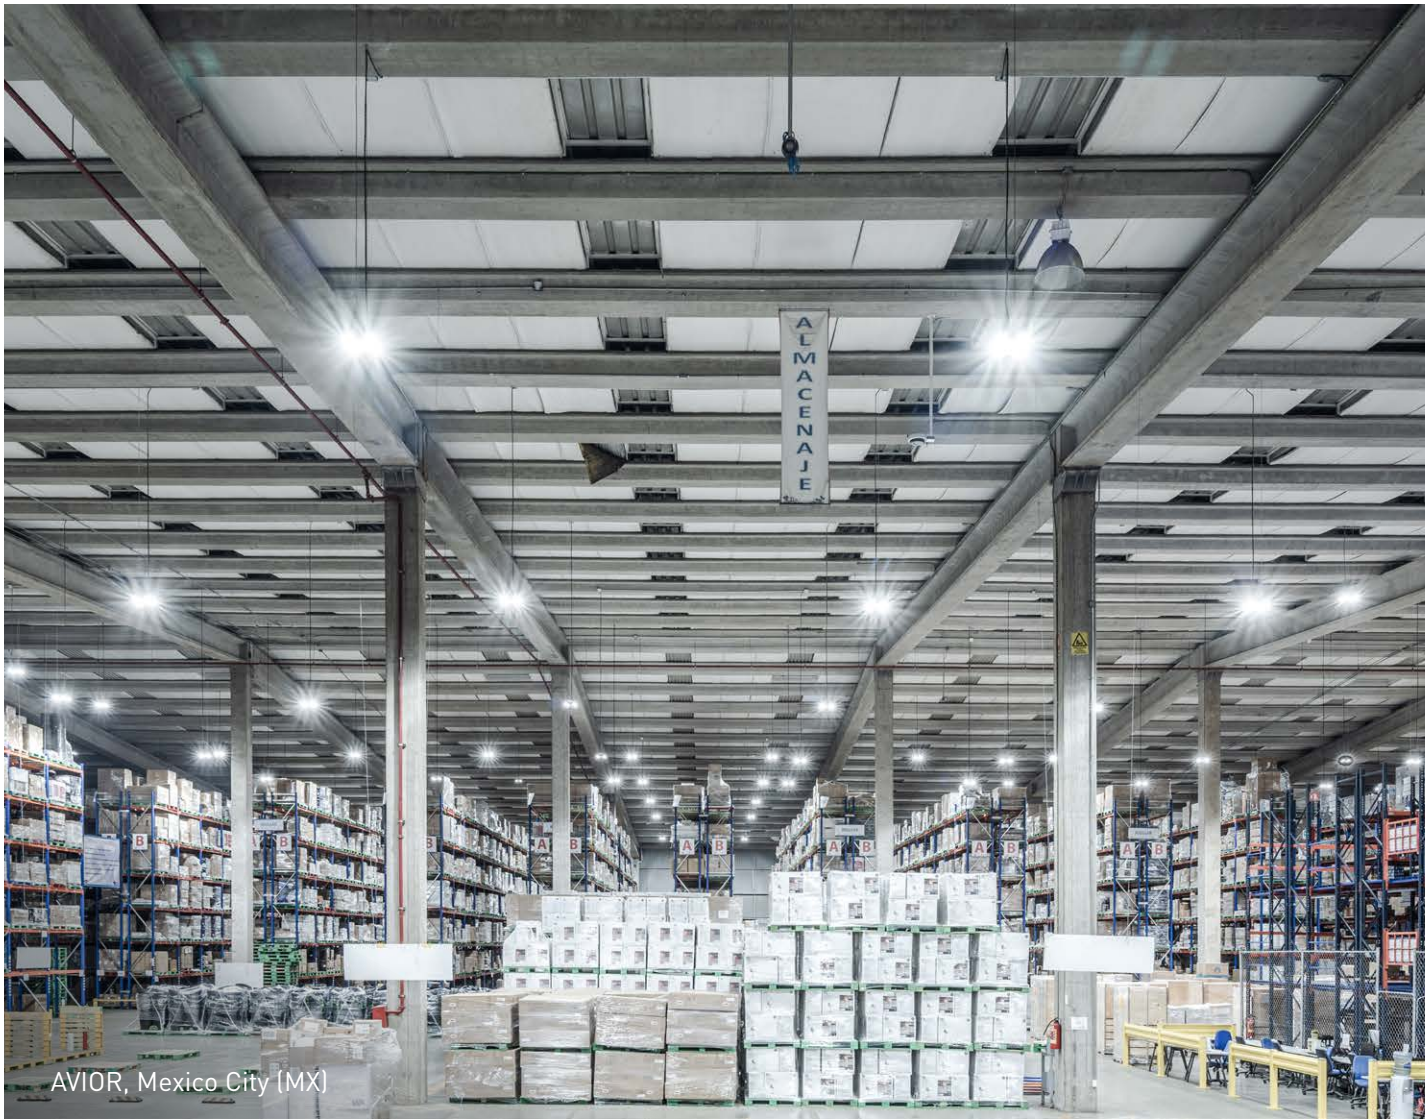

Energy Saved	34,370,831 kWh
CO <sub>2</sub> Saved	15,055,000 kg

INSTALLATIONS

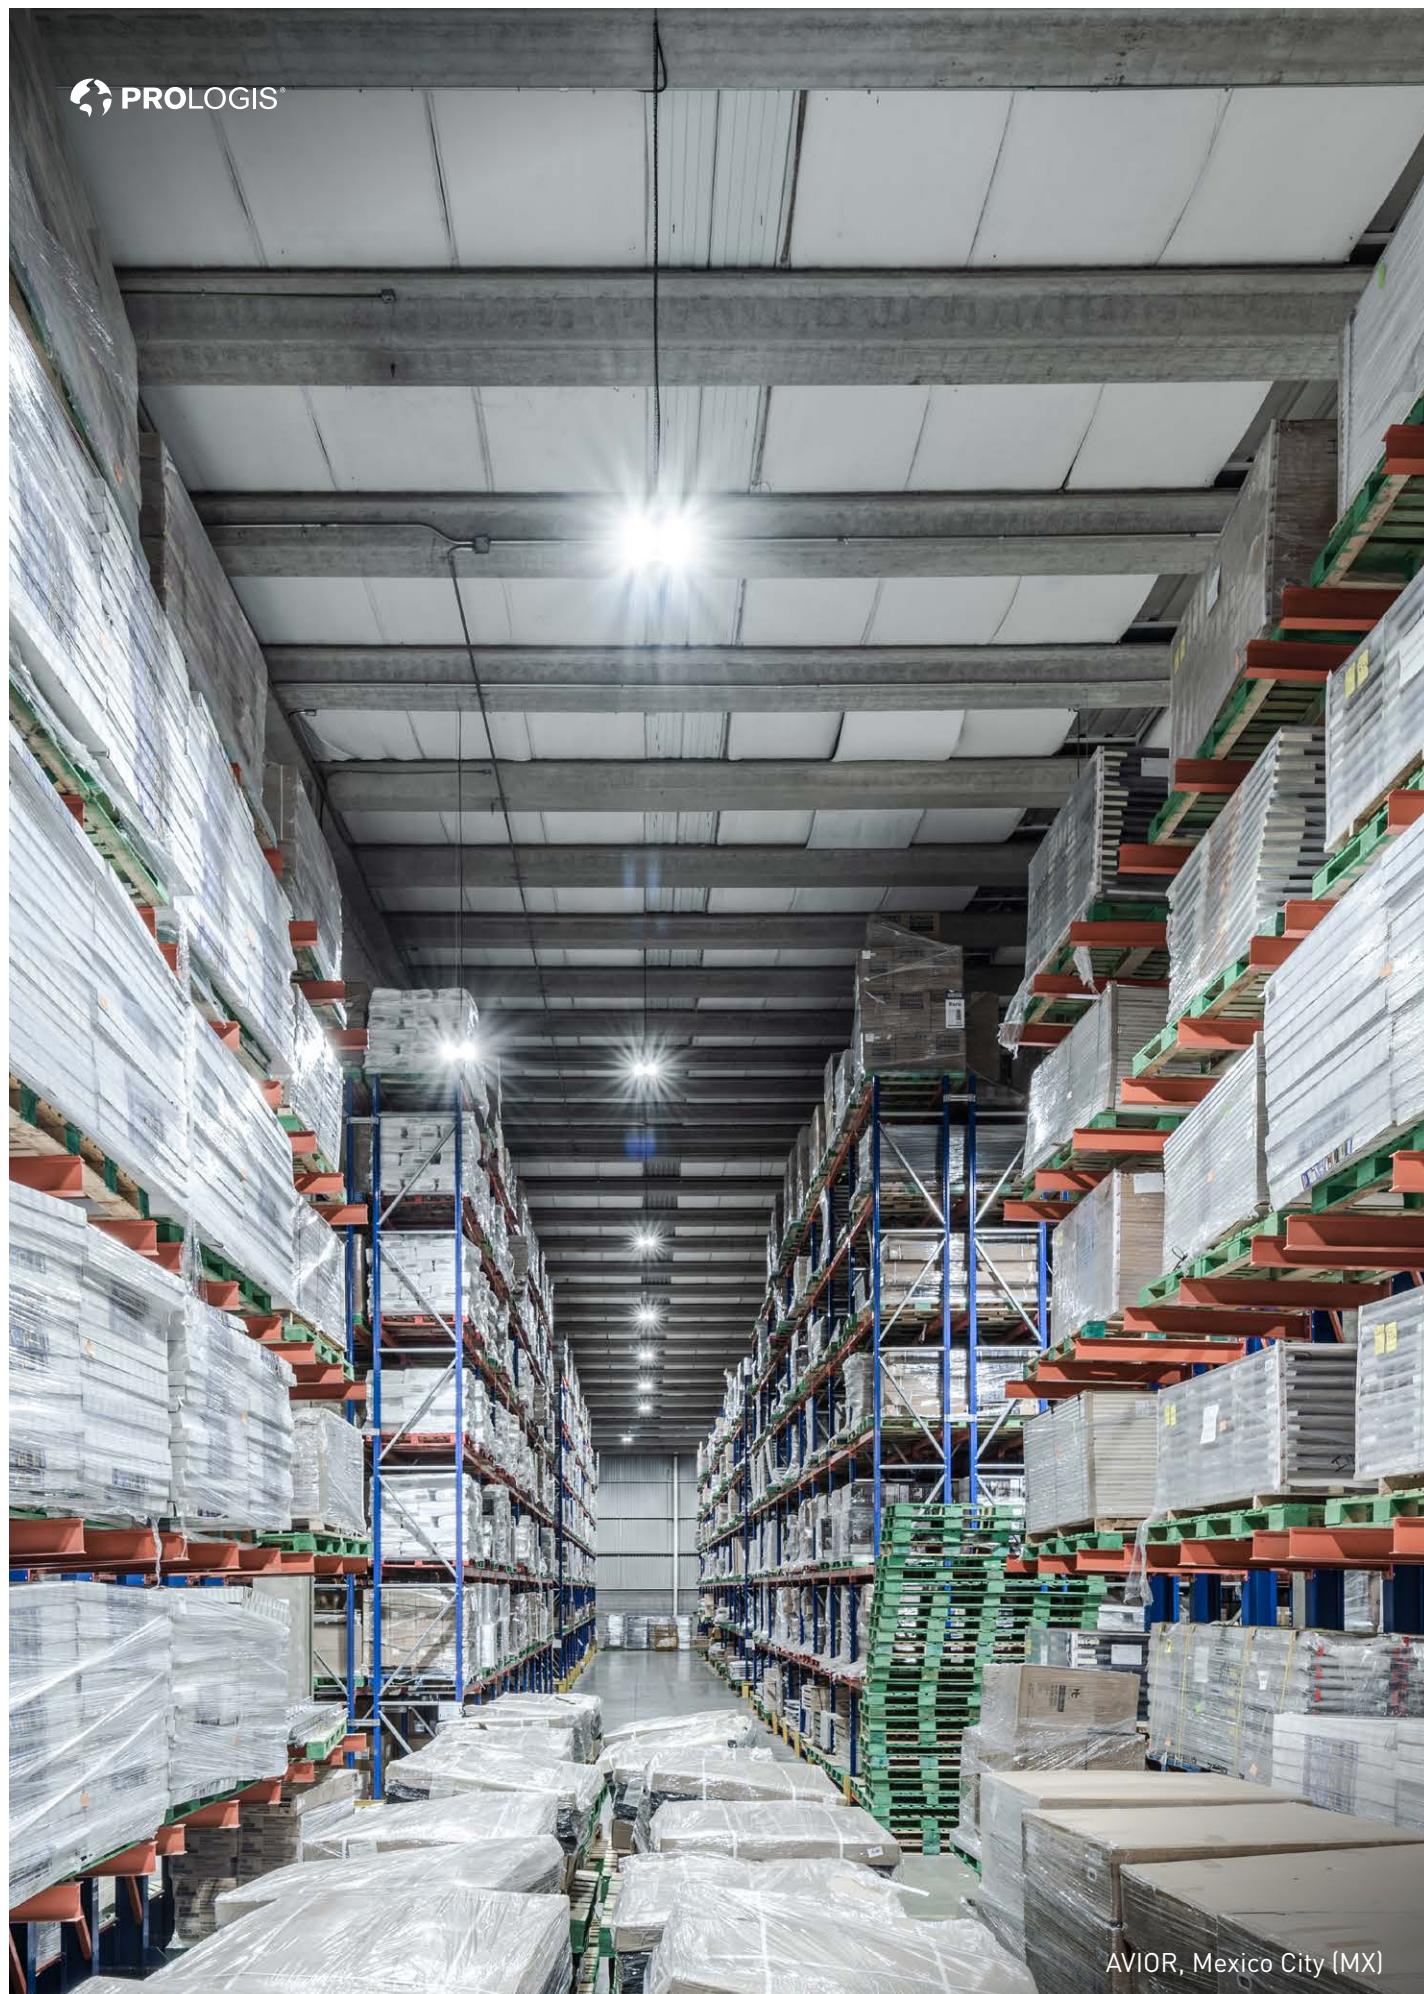

Area delivered	1,600,000 m <sup>2</sup>
Average Lead Time in days	34
Number of installed fixtures	48,400
Accidents during installation	None

AVIOR, Mexico City (MX)

DICKA Logistic, Mexico City (MX)

For the leading global developer, PROLOGIS MEXICO, we carried out the replacement of obsolete industrial and office lighting in industrial and logistics centers from 2019 to 2025. The project took place in cities including Guadalajara, Guanajuato, Ciudad Juárez, Monterrey, Querétaro, Reynosa, San Luis Potosí, Tijuana, and Mexico City.

In total, we upgraded lighting in 210 halls with a combined area of over 1,600,000 m<sup>2</sup>, serving clients such as DHL, KUEHNE + NAGEL, AVIOR, and DICKA. The new state-of-the-art LED luminaires are equipped with integrated motion and brightness sensors, allowing for individual luminaire control. This upgrade has resulted in energy savings of more than 63%.
