

# 79%

## DICKA LOGISTICS, MEXICO CITY, MEXICO

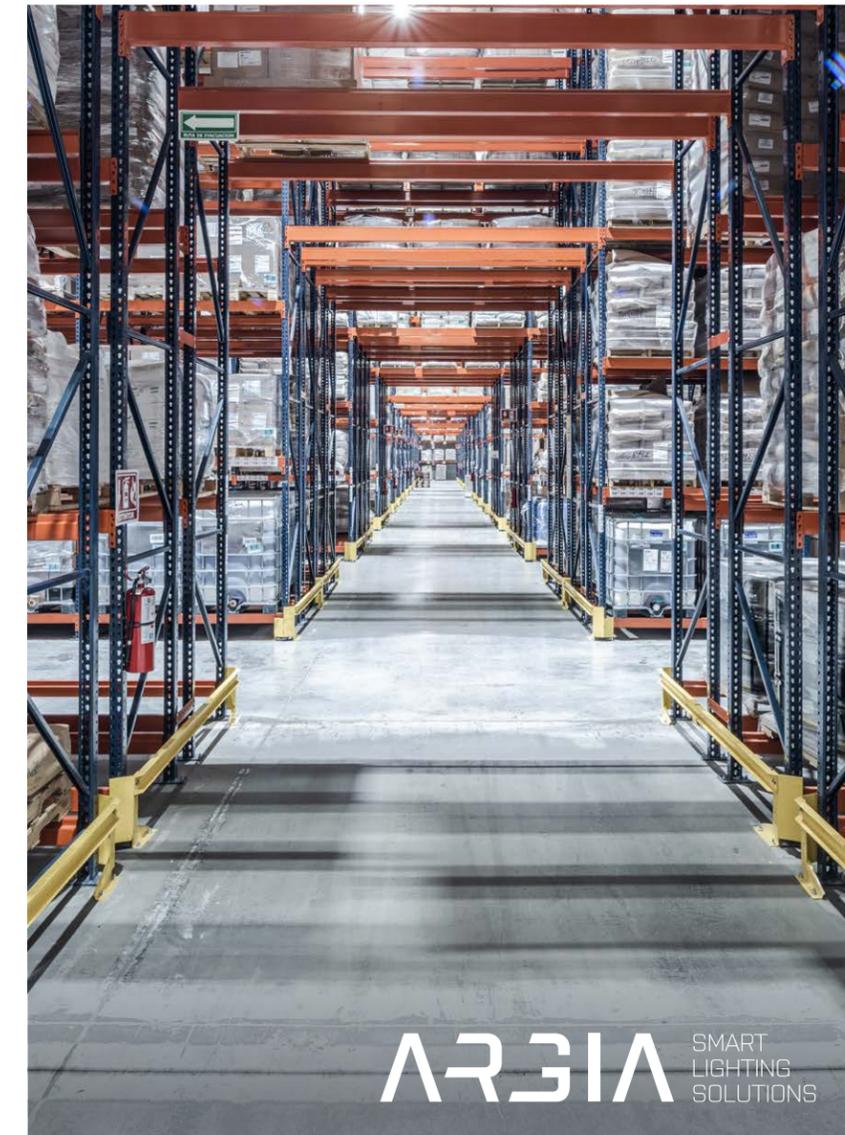

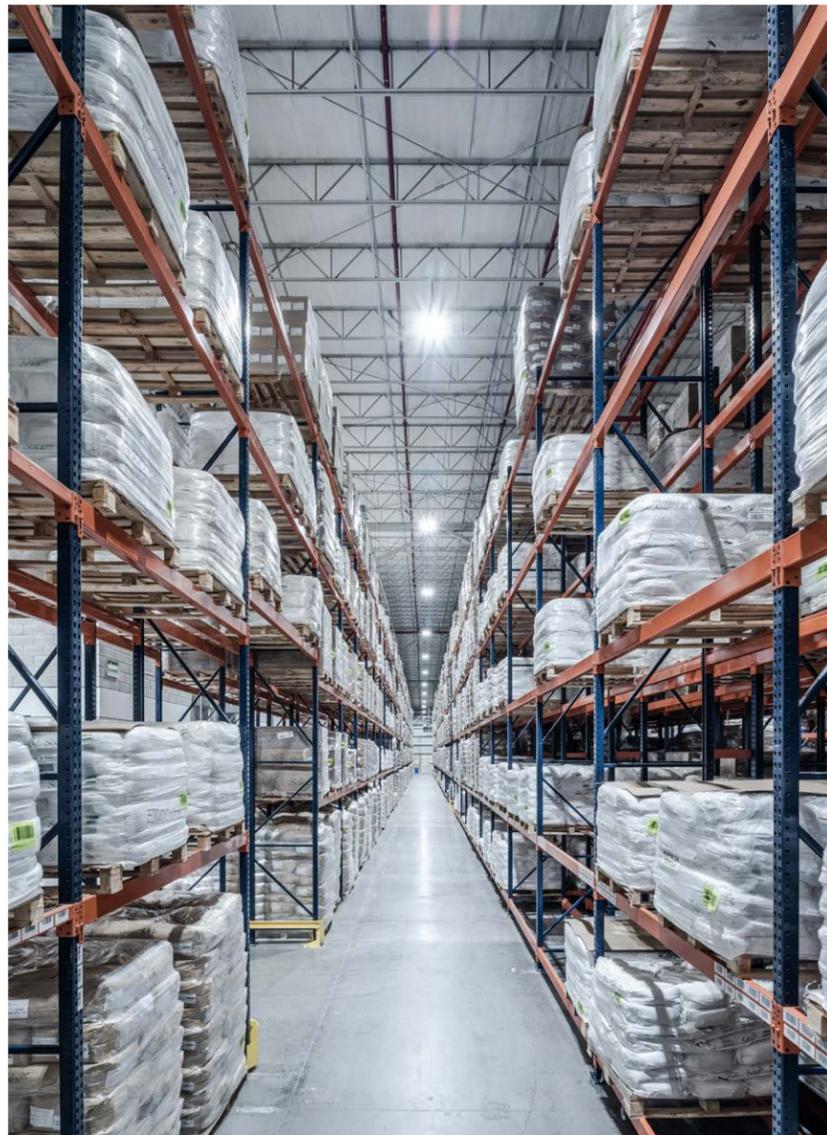

For DICKA LOGISTICS we have replaced the already unsuitable lighting of the logistic and warehouse hall with a total area of 12,211 m<sup>2</sup> in the industrial park Prologis Park Agave 3. The installation was carried out without limitation of operation and outdated fluorescent luminaires were replaced by modern dimmable LED luminaires individually controlled with integrated combined daylight and presence sensor. Thanks to ARGIA solution, the customer

has achieved an operating cost savings of 79% with a significant increase 50% in the lighting and new lighting in other areas. Everything was delivered on time and in perfect quality.

„First successful implementation of Prologis LightSmart project. Great lighting improvement, with quick and professional installation.“  
Vit Kovarik CEO

	Original installation	ARGIA lighting solution
<b>Type of luminary</b>	Fluorescent luminaires T5	<b>GE ABV3</b>
