

magnecoil

INSTALLED CAPACITY: **55,65** kWp

ANNUAL PRODUCTION: **49,58** MWh

CO₂ SAVINGS: **20,2** tun / rok

Magnecoil specializes in a wide range of products, including plastic molding, production of electrical grommets, creation of molds for thermoplastic injection, manufacturing of electromagnetic coils for hydraulic valves, as well as the production of mechanical brakes and clutches.

- > PV Installed capacity: 55,65 kWp
- > Number of panels: 106 pcs
- > Panel type: LONGI_LR5-66HTH-525M
- > Number of inverters: 1 pcs
- > Inverter type: Solinteg Integ-M-50K-100
- > Optimizer type: Optimizer TIGO TS4-A
