ELECTRICITY SAVINGS:
310,266 kWh

| | Original installation | ARGIA lighting solution |
|----------------------|--|--------------------------|
| Type of luminary | Fluorescent lights | INDUSTRY-LINE-35W |
| Number of luminaries | 675 units | 390 units |
| Total Input | 64 kW | 14 kW |
| Consumption kWh/year | 394,964 kWh | 84,698 kWh |
| Project result | Strengthening of lighting intensity by approx. 110% and reduction of annual electricity consumption by up to 80%. | |
| Return on investment | 2 years | |

In 2014, the industrial lighting at the HEDVA PRIMA textile plant was modernised. Implementation included the dismantling of more than 670 older fluorescent lights and the installation of 390 power-saving and maintenancefree

INDUSTRY-LINE-35W luminaries. The project resulted in energy savings of more than 80% and a significant improvement of working conditions. The return on the investment in this case is calculated within 2 years.
