ELECTRICITY SAVINGS:
832,430 kWh

	Original installation	ARGIA lighting solution
Type of luminary	Fluorescent tubes T5 a T8	LEDIKO INLENE
Number of luminaries	1,202 units	435 units
Total Input	204.340 W	84.764 W
Consumption kWh/year	856,841 kWh	320,157 kWh
Project result	Very long lifetime with minimal maintenance costs.	
Return on investment	1 year	

During summer 2015 our company provided a full service of new LED lighting in new production, storage and administrative halls of Linde company. LINDE MATERIAL HANDLING is a division specialized in production of world-wide known forklifts.

Our work included not only the installation itself, but also many partial activities including the initial lighting concept, project designing, delivery and all needed documentation required for the final acceptance and other.
