Consumption kWh/year	946,168 kWh	320,283 kWh
Project result	Total operating costs reduced by 66%.	
Return on investment	2.9 years	

For ALEN DEL NORTE, a leading Mexican detergent manufacturer, we carried out an exchange of outdated lighting in its production hall and storage hall for a new efficient LED solution with partial control based on the presence of people. Installation of more than

300 luminaires took place during full operation and with no interruption. In the storage hall the luminaires are controlled and dimmed by motion sensors. Everything was delivered in time, in impeccable quality and fully according to the customer's requirements.
